Demonstration of Proposed Features

SkillWallet | Data Analytics with Tableau Capstone Project

Project detail	Confirmed information
Date	27 October 2026
Team ID	LMP-EV-2026
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	1 Mark
Project Lead / Sole Contributor	Yuvraj Shrivastava
Enrollment Number	EN25CS3011105
Institution	Medicaps University, Indore

Demonstration of Proposed Features

The table below records the principal features included in the current Tableau and website implementation. Status reflects the project information and screenshots supplied. A feature is marked demonstrated only where an existing workbook or published website view supports that status.

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	Executive KPI summary	Displays annual sales units, distinct vehicle count, average range, average price and average customer rating.	Implemented	Yes	KPI summary is present in the Tableau workbook/dashboard.
2	Category sales analysis	Horizontal bar chart compares annual sales units across EV categories.	Implemented	Yes	Category Sales worksheet and dashboard view supplied.
3	Manufacturer share treemap	Treemap visualizes annual sales distribution across manufacturers.	Implemented	Yes	Manufacturer Share worksheet supplied.
4	Battery technology analysis	Compares median range by battery type and displays battery technology share.	Implemented	Yes	Battery Performance and Battery Tech Share worksheets supplied.
5	Geographic and technical comparisons	Includes manufacturing map, price-versus-range scatter plot, rating/battery comparison and country-battery matrix.	Implemented	Yes	Corresponding Tableau worksheets supplied.
6	Interactive dashboard and public website	Combines worksheets with filters and dashboard actions; website links to the published project.	Implemented	Yes	Dashboard filters: model_year, category, battery_type and manufacturing_country. GitHub Pages website is live.

Feature Implementation Summary

Metric	Result
Total Features Proposed in this document	6
Total Features Implemented	6
Total Features Demonstrated / evidenced	6
Overall Implementation Rate	100% (6 of 6 listed features)

Scope clarification: the six rows above group the currently implemented and evidenced project features. The Tableau Story is separate and only Story Point 1 is completed. Story Points 2, 3 and 4 are not included in the implemented-feature count. The hypothetical Emily Johnson persona is a design aid, not a real customer participant.
