Project Demo Planning

SkillWallet | Data Analytics with Tableau Capstone Project

Project detail	Confirmed information
Date	27 October 2026
Team ID	LMP-EV-2026
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	1 Mark
Project Lead / Sole Contributor	Yuvraj Shrivastava
Enrollment Number	EN25CS3011105
Institution	Medicaps University, Indore

Project Demo Planning

This is a proposed individual demonstration sequence for presenting the completed project. The duration is an estimated presentation plan, not a record of a demo already conducted.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & problem statement	Introduce the EV market analytics objective, project scope, dataset and intended dashboard audience.	2	Yuvraj Shrivastava
2	Dataset and preparation	Explain the training CSV, relevant dimensions/measures and reported null/duplicate/type-cleaning steps. Clarify that the test CSV was not connected.	2	Yuvraj Shrivastava
3	Solution and technology stack	Explain the Tableau Public workbook, nine worksheets, dashboard, GitHub Pages website and publication workflow.	2	Yuvraj Shrivastava
4	Live dashboard demonstration	Show KPIs, category sales, manufacturer treemap, battery views, map, scatter plot, rating/battery comparison and country-battery matrix; demonstrate filters.	5	Yuvraj Shrivastava
5	Tableau Story and current status	Present completed Story Point 1 and clearly state that Story Points 2–4 remain incomplete / future work.	1	Yuvraj Shrivastava
6	Conclusion and Q&A	Summarize insights, limitations, future enhancements and answer evaluator questions.	3	Yuvraj Shrivastava

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	State the difficulty of reviewing multi-dimensional EV market data without consolidated visual analysis.
2	Solution Overview	Show the public project website, explain the CSV-to-Tableau workflow and outline the workbook.
3	Live Feature Demonstration	Open the Tableau Public workbook/dashboard; demonstrate charts, filters and dashboard actions. Avoid presenting uncompleted Story Points as finished.
4	Q&A Session	Answer questions about data preparation, measures, dashboard design, source limitations and future scope.

Estimated total presentation time: 15 minutes. All demo sections are assigned to Yuvraj Shrivastava because this is an individually completed project; no other presenter is identified.
