Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	**Stage 1**	**Stage 2**	**Stage 3**
Actions *What does the customer do?*	- Defines the EV market question - Opens the project website - Reviews the KPI summary	- Applies dashboard filters - Compares charts and tooltips - Explores battery and country views	- Reviews the visual evidence - Notes patterns and exceptions - Forms next-step priorities
Touchpoint *What part of the service do they interact with?*	- GitHub Pages project website - Tableau Public dashboard - Executive Summary and KPI banner	- Nine Tableau worksheets - Year, category, battery and country filters - Chart selections and tooltips	- Completed Story Point 1: Global EV Market & OEM Overview - Tableau Public Story view - Project website dashboard link - Story Points 2-4 are planned, not completed
Customer Thought *What is the customer thinking?*	- Can I see the EV market clearly? - Which categories contribute most sales? - What battery trends stand out?	- How do price and range compare? - Which countries show activity? - Are the measures comparable?	- What opportunities need review? - What limits should I consider? - How can I explain the findings?
Customer Feeling *What is the customer feeling?*	- Curious about the market - Needs a clear starting point - Wants metric definitions	- Engaged while exploring - May be unsure if views differ - Needs clear filters and labels	- More confident with context - Cautious about over-interpreting - Ready to discuss priorities

Process Ownership *Who is in the lead on this?*	Yuvraj Shrivastava Sole project owner and dashboard creator	Yuvraj Shrivastava Sole project owner; data cleaning and preparation (null/duplicate removal, data-type correction); dashboard creator	Yuvraj Shrivastava Story author and website publisher
Opportunities *How can we improve this stage?*	- State the business question - Define KPI units and source - Explain project navigation	- Keep filters easy to locate - Use consistent currency and labels - Add concise chart tooltips	- Show data update date - Explain assumptions and limits - Provide a final insight summary
