4. EMOTIONS: BEFORE / AFTER

SkillWallet | Data Analytics with Tableau Capstone

Project detail	Confirmed information
Documentation date	27 October 2026
Final submission date	28 October 2026
Project name	Electric Vehicle Market Performance & Insights
Tableau workbook	Electric Vehicle Market & Technology Analysis
Team ID	LMP-EV-2026
Project owner	Yuvraj Shrivastava
Enrollment number	EN25CS3011105
Institution	Medicaps University, Indore
Contribution	Individual project completed by Yuvraj Shrivastava

Purpose and analytical approach

This report documents the business questions used to guide the Electric Vehicle Market Performance & Insights analysis. The supplied EV market CSV dataset was cleaned by removing nulls and duplicate records and correcting data types. The training CSV was used for the Tableau workbook. The test CSV was retained only as a supplied project resource and was not connected to the workbook.

Business questions and visualizations

No.	Business question	Visualization / Tableau worksheet	Measures and dimensions
1	Which vehicle categories contribute the most annual sales?	Category Sales horizontal bar chart	SUM(annual_sales_units) by category
2	Which manufacturers account for the largest sales contribution?	Manufacturer Share treemap	SUM(annual_sales_units) by manufacturer; percent-of-total calculation
3	Which battery chemistry has the highest median vehicle range?	Battery Performance bar chart	MEDIAN(range_km) by battery_type
4	How is the EV vehicle population distributed across battery technologies?	Battery Tech Share pie chart	COUNTD(vehicle_id) or sales measure by battery_type; percent of total
5	How does manufacturing activity vary across countries?	Global Manufacturing Map	SUM(annual_sales_units) by manufacturing_country
6	How do vehicle price and driving range relate across vehicle categories?	Price vs Range scatter plot	AVG(range_km), AVG(price_usd), category; battery capacity used for size
7	How do customer ratings and battery capacity compare across vehicle categories?	Rating vs Battery dual-axis combination chart	AVG(customer_rating) and AVG(battery_capacity_kwh) by category
8	How does the distribution of battery types vary by manufacturing country?	Country vs Battery Matrix heatmap	COUNTD(vehicle_id) by battery_type and manufacturing_country
9	What is the overall scale and profile of the EV market?	Executive Summary / KPI view	Annual sales, distinct vehicle count, average range, average price and average rating

The template requires at least eight business questions and visualizations. Nine questions are listed above. The worksheet names and measures reflect the supplied Tableau screenshots and project description. The report does not claim that a separate SQL code listing was used.

Evidence to attach

• **Category Sales worksheet screenshot:** Attach the corresponding Tableau screenshot in the evidence section or as an appendix.

• **Manufacturer Share treemap screenshot:** Attach the corresponding Tableau screenshot in the evidence section or as an appendix.

• **Battery Performance and Battery Tech Share screenshots:** Attach the corresponding Tableau screenshot in the evidence section or as an appendix.

• **Global Manufacturing Map screenshot:** Attach the corresponding Tableau screenshot in the evidence section or as an appendix.

• **Price vs Range scatter screenshot:** Attach the corresponding Tableau screenshot in the evidence section or as an appendix.

• **Rating vs Battery and Country vs Battery Matrix screenshots:** Attach the corresponding Tableau screenshot in the evidence section or as an appendix.

• **Executive Summary or dashboard screenshot:** Attach the corresponding Tableau screenshot in the evidence section or as an appendix.
